Hello CLCC Owners!

Good news! Dave was successful in securing the slash trailer donated by the Fire Department for **THIS WEEKEND ONLY**.

We are asking for each homeowner who has the capabilities for dropping off any slash to the horse pasture to please do so.

As a courtesy, this Saturday from 8 is to 3 pm for the owners who cannot transport their slash to the horse pasture Dave or Keith can pick up the slash from the end of your driveway. After this, each homeowner is responsible to clear out any slash on their own.

The slash trailer will be parked at the clubhouse Saturday evening through Sunday then will be utilized in other neighborhoods also affected by the fire.

Slash is considered untreated wood 4" in diameter or less. **Any slash after this weekend will be each owner's responsibility.**

On another note and thank you to all who voiced your concerns with the extra traffic coming into CLCC to check out the damage from the fire. CLCC will be blocking off part of each entry with a sign that says "Authorized Personnel Only, Patrolled Area" to help keep the "lookers" out. To clarify further any CLCC homeowner, guest of the homeowner, renters, and/or contractors are considered authorized.

We also asked that as a courtesy to your neighbors to display your CLCC Owners Badge or Fishing Badge on your dash or rearview mirror to help everyone eliminate any unnecessary visitors so each homeowner can rest assured the vehicle driving around are authorized.

Thank you in advance for your cooperation.
